

Important Information MATH503 for Week 8

1. The lecture deals with conducting hypothesis tests for population means and proportions. It covers p57 – 65 in the manual. We also introduce the definitions for power sets and Cartesian product that is required for relations and functions. See Sections 5.2 and 5.3 in the manual.
2. Section 5.1 in the manual on linear functions is a self-study topic. Use the Myimaths homework tasks for the self-study: Equations of a line 1, 2, 3.
3. If you have any questions from class, please post them on Canvas discussion board by this Sunday midnight.
4. Looking ahead
Pre-reading for Week 9:
 - a) Section 5.4 of Course manual, p 154—158, p 164 - 168 from online book (Garnier and Taylor). **Topic:** Relations.
 - b) Section 5.5 of Course Manual. **Topic:** Functions.
